

REPUBLICANS AND DEMOCRATS EAGER FOR TREATY FIGHT

LEADERS IN BOTH PARTIES SAY THEY ARE WELL PLEASED WITH WILSON'S ATTITUDE

HARDING ACCEPTS DEFINITION

Republican Nominee is Confident That His Party Will Receive Endorsement of the Voters—Discusses Third Term Stand

(By Raymond Clapper)

Washington.—The republican party will gladly accept the challenge of President Wilson for a referendum on the league of nations. Senator Warren G. Harding, republican presidential nominee, said today.

Asked regarding the president's interview, Harding said:

"I am sure the republican party will gladly welcome a referendum on the question of the foreign relationship of this republic and the republican attitude of preserved nationality will be overwhelmingly endorsed."

The republican attitude of "preserved nationality," will be overwhelmingly endorsed, Harding predicted in his comment on the interview with President Wilson, secured by the New York World.

Confers With Hoover

Senator Harding breakfasted with Herbert Hoover today but declined to reveal any of the conversation.

After seeing Harding, Hoover said he presented views which he believed were held by a considerable group of independent and progressive republicans upon public questions.

Hoover called upon all republican factions to support the Harding-Coolidge ticket.

Harding Accepts Advice

Harding will declare for a hands-off policy toward congress as one of the chief issues of his campaign for the presidency, according to his advisors.

Announcement of the Wilson administration and an end to the "dictatorship of the executive," will also be a campaign cry pounded into every precinct during the Harding campaign. Harding is on record as opposed to a "one man government," and will shape his administration, if elected, only by the advice of counselors, it is said.

Harding is beginning early listening to advice. It is stated that his message of acceptance will be the composite views of scores of persons.

Democrats Welcome Fight

San Francisco, Cal.—Members of the democratic national committee and the few delegates already here for the national convention, were ready today to accept the plan of President Wilson to make the treaty uppermost in the presidential campaign.

Talk of possible renomination of President Wilson for a third term has not appeared in the open, however.

Delegates Unfrustrated

Statistics prepared by the national committee show that the great body of delegates is unfrustrated. This fact has added to the uncertainty surrounding the convention. Forty-nine states and territories listed by the committee show 11 sending instructed delegates. None of these is instructed for President Wilson.

The instructed delegations are: Oklahoma, 20 delegates instructed for Owen; Iowa, 26 for Meredith; South Dakota, 10 for Gerard; North Carolina, 24 Simmons; Nebraska, 16 for Hitchcock; New Jersey, 28 for Edwards; Ohio, 48 for Cox; Kentucky, 26 for Cox; Pennsylvania, 76 for Palmer; Virginia, 24 for Glass; Oregon, 10 for McAdoo.

Taggart Expresses Views

French Lick, Ind.—"I am satisfied that Woodrow Wilson will not be a candidate for re-nomination at the San Francisco convention," Thomas Taggart, democratic leader and senatorial nominee from Indiana, said today.

Taggart referred to the interview printed in the New York World with President Wilson, in which the president avoided saying whether he would accept a third term.

Regarding Wilson's assertion that he was "extremely confident" that the democratic convention at San Francisco would consent to make the league of nations a campaign issue, Taggart said:

"I don't know what planks will go into our platform. I do know, however, that a majority of the American people are for the league of nations—a peace treaty that will bring lasting peace to the world."

"There are other important issues which confront us as we assemble at the Golden Gate. One of them is the financial problem—another the reconstruction problem—the farmers have things to take care of labor and capital have differences. All of these are important matters."

A wagon load of gypsies came into Appleton Thursday afternoon and attracted considerable attention. The women started out with a fortune telling crusade but were stopped by the police and the party made to leave the city.

A dance will be given at Twelve Corners Tuesday evening, June 29. Music will be furnished by Stocker Bros. orchestra.

Bull Moosers Shy At Bid To Join Liberals

Progressives of 1912 Want to See What Democrats Will Do Before Allowing Themselves With New Third Party

(By United Press Leased Wire)

Chicago.—Success of a third party will depend on the democratic national convention, according to Bull Moosers of 1912, with whom promoters of the proposed third party are flirting.

Though invited to join a third party movement, the chieftains are holding off until they see what the democrats do. Experienced with the 1912 attempt to put over a third party ticket, headed by Theodore Roosevelt, the ex-Bull Moosers are shy about another insurgent move unless they have a reasonable chance of winning.

Such former progressives as Jane Addams, Harold Ickes, Kellogg Fairbanks and Raymond Robins, prominent in 1912, have been invited to join the committee of forty-eight.

They expect to reply to the invitation directly after the democrats meet.

John F. Bass, former Roosevelt supporter and, some others, do not take a rosy view of the prospects of success for any third movement.

The third party leaders are not claiming they can beat both the democrats and the republicans this year, but they are looking to the future.

"A third party will eventually be a success," said Prof. Stanley Rybins, University of Minnesota, and a member of the committee of forty-eight.

"We do not expect to elect a president this fall, but believe there will be a big chance in 1924. We believe we will be successful this fall in that we will establish a new party that will draw to it all the liberal elements in the country. Before 1924 we hope to have a reasonable representation in congress."

Pleased With Labor Action

Chicago.—Adoption of the resolution endorsing government ownership of railroads by the American Federation of Labor convention at Montreal was interpreted today by leaders of the proposed third party as a move toward supporting their movement.

Officials of the committee of forty-eight and the national labor party were jubilant over the adoption of the resolution which they said was a defeat for Samuel Gompers who has opposed the federation's entrance into politics.

Liberal leaders believed this means that organized labor will enter politics and support the third party.

Both the labor party and the committee of forty-eight expect to adopt planks which will contain demands for government ownership.

G. W. PERKINS, BULL MOOSER, DIES TODAY

RETIRED FINANCIER AND A FRIEND OF ROOSEVELT DIES IN SANITARIUM

(By United Press Leased Wire)

Stamford, Conn.—George W. Perkins, retired financier, who for many years was connected with J. Pierpont Morgan, died early today in the Stamford Hall Sanitarium.

Perkins went to the sanitarium about a week ago, following what is said to have been a nervous breakdown.

Perkins was a close friend of Theodore Roosevelt and other national figures.

George Walbridge Perkins, financier and at one time partner of the elder John Pierpont Morgan, was born in Chicago, January 31, 1862.

He entered the employ of the Chicago office of the New York Life Insurance company in 1877, rising to superintendent of the western department in 1898 and was elected chairman of the finance commission of the company in 1900. In 1901 he became a partner in the banking firm of J. P. Morgan and Company, retiring in 1910.

Perkins was a leading progressive during the 1912 presidential campaign.

Perkins was a director of the International Mercantile Marine, the United States Steel Corporation and other large companies. He was a trustee of Vassar college.

Physicians said it was the intensive work that Perkins put into everything that left him a man broken physically, at the age of 58 and hastened the end. The first known of his illness was when he failed to attend the republican national convention at Chicago.

He was resting at an Adirondack mountain camp after suffering a nervous breakdown. He was hurried from the camp by automobile on Sunday, June 6, to a sanitarium here. The sanitarium authorities until today denied that he was at the place. But Perkins' son admitted the elder Perkins had been sent to the sanitarium and it was established he was there under the terms of Connecticut statute which permits confinement of a person under observation for ten days.

Perkins' condition steadily grew worse.

A lawn social will be given Thursday afternoon and evening by the Women's Missionary society of Trinity English Lutheran church, on the church lawn at the corner of Onondaga and Harris streets.

HOOVER THROWS HIS SUPPORT TO G. O. P. NOMINEE

DEFEATED PRESIDENTIAL ASPIRANT CALLS ON ALL REPUBLICANS TO SUPPORT HARDING

IS AGAINST THIRD PARTY

Democratic Form of Government Will Be Endangered by Ascendancy of Another Political Party, Food Director Says

(By United Press Leased Wire)

Washington.—Herbert Hoover today threw his support solidly behind Senator W. G. Harding and called on all shades of the republican party to support the presidential nominee.

Hoover announced his support of the republican ticket after breakfasting with Harding at the latter's invitation. The announcement definitely cleared the doubt surrounding Hoover's attitude as the result of the Chicago convention. Hoover's letter endorsed the republican platform, except in some minor particulars. Coming on the heels of President Wilson's condemnation of that document, the letter was regarded here as making further consideration of Hoover as a democratic presidential possibility out of the question. He had been mentioned by democratic leaders now at French Lick, Ind.

Against Third Party

Hoover also declared against a third party, which, it is understood, many elements dissatisfied with both old parties wanted him to lead.

Hoover reiterated previous statements of Senator Harding that Harding would issue no statement of policies until after the democratic convention.

"I need not reiterate my conviction that the constructive ability so critically needed for the vigorous business of re-organization of the federal government and to meet the many economic issues before us, lies in the republican party," Hoover declared.

In response to inquiries, Hoover said in a letter which has been sent to the questioners:

Disappointed With Convention

"Undoubtedly many of the independent and progressive republicans like myself are greatly disappointed over some tendencies that were apparent at Chicago. The Chicago platform is not radical. The greater part of it is constructive, nothing to prevent the compromise planks on labor, the league, etc., from being given a forward-looking interpretation; some of the over-riding majority it gave our plan yesterday, it is difficult to imagine that the democratic party can deny us," said President Hoover.

May Appeal to New Party

William J. Bryan has pledged his support to the plan, Heberling said. Heberling added that should the democrats refuse endorsement, assistance will be sought from the labor party which is scheduled to hold its nomination convention in Chicago on July 12.

Organized labor of the United States is now rapidly plunging into militant policy of active participation in politics. It is strongly indicated at this convention. The trend is all towards party affiliation as opposed to the non-partisan participation advocated by President Samuel Gompers.

Nothing could be more disastrous than the development of several party organizations representing the complexity of every group in the country. With the legislative and executive functions more widely separated than in any other democracy, the whole process of constructive government will come to an end if we have more than two dominant parties. If we should come to this position, there will be no possibility of the American people securing an expression of the will of the majority and we shall be entirely ruled by log-rolling minorities or sterile political coalitions.

Two Parties Enough

"I am convinced that those of us—and I believe they are the majority of the party—who hold more definite views, could not, even were we so inclined, successfully effect the consummation of such views outside the party, and that our duty is to endeavor to bring them to realization within the party organization itself as the issues of which they bear."

"The tendency of the party will gain their meaning only from actual administration."

"I am convinced that unity of action among the liberal thinkers of the party, especially if they exert themselves in the current of congressional elections, will insure the country against legislative reaction."

Restores Cooperation

"If the republican party is not to be irrevocably split, I cannot conceive that Senator Harding will for one moment submit the administrative side of the government to domination of any group or coterie. Furthermore, we have the possibility of having cabinet responsibility and of having co-operation restored with the legislative side of the government."

"For all these reasons, I believe that those of us who look upon party organization, not from the point of view of partisanship, but solely from the point of view of its usefulness as an agency of maximum service to the country should support the republican party at the polls."

A meeting of instructors in the daily vacation Bible school is to be held at three o'clock Saturday afternoon at the Y. M. C. A. Miss Marlor Young will give lessons in baskets and sewing to those who are to teach these subjects in the school.

The regular meeting of the Knights of Columbus was held Thursday evening at K. of C. hall. Routine business was transacted.

GOMPERS IS AGAIN ELECTED HEAD OF ORGANIZED LABOR

ONLY ONE VOTE IS CAST AGAINST VETERAN LABOR LEADER AT CONVENTION TODAY

PLUNGE INTO POLITICS

Endorsement of Government Ownership of Railroads Will Be Demanded of the Democratic Platform Builders This Month

(By United Press Leased Wire)

Montreal, Que.—Samuel Gompers, veteran leader of organized labor, today was re-elected president of the American Federation of Labor at its annual convention here today.

No one ran against Gompers and his election was unanimous except for one vote. It was cast by Delegate James A. Ducommun, of Seattle.

Ducommun's action prevented the adoption of a resolution instructing Secretary Morrison to cast unanimous vote for Gompers.

Gompers seemed much affected by the ovation given him by the delegates.

Gompers has been head of the organization for 38 years. He was defeated for re-election in 1894, but went back to his original trade of cigar making and in 1895 was again elected.

Misfortune struck the veteran labor leader in the last year. Death took his wife and aged father.

A year ago Gompers' daughter died. Gompers is in his 71st year. He celebrated his last birthday in January by spending the entire day at his desk.

Endorsement of government ownership of railroads with "democratic operation," will be demanded of the democratic platform at San Francisco by two million organized railroad workers, President Heberling, of the Switchmen's Union, announced here today.

Heberling is one of the leaders of the railroad group which yesterday forced endorsement of government ownership from the convention over the protest of President Samuel Gompers.

The action of the railroad group in putting their program up to the democratic platform committee virtually means asking the democratic party to endorse the Plumb plan for tripartite control of railroad operation by the public, government and workers.

"Backed as we are by the American Federation of Labor as a result of the overwhelming majority it gave our plan yesterday, it is difficult to imagine that the democratic party can deny us," said President Heberling.

May Appeal to New Party

William J. Bryan has pledged his support to the plan, Heberling said. Heberling added that should the democrats refuse endorsement, assistance will be sought from the labor party which is scheduled to hold its nomination convention in Chicago on July 12.

Organized labor of the United States is now rapidly plunging into militant policy of active participation in politics. It is strongly indicated at this convention. The trend is all towards party affiliation as opposed to the non-partisan participation advocated by President Samuel Gompers.

MYSTERY WHISKEY BOAT IS SOUGHT BY OFFICERS

(By United Press Leased Wire)

Kenosha, Wis.—A "whiskey" boat which is said to ply between this port and Chicago, unloading its cargoes at some point along the lake, is being searched for today by prohibition agents in connection with the disappearance of \$75,000 worth of whiskey which prohibition agents intended to seize. The liquor, sent to an assumed company here from Cincinnati, was unloaded from a freight car and carted away over night, while authorities were endeavoring to obtain proper papers for seizure of the whiskey. The boat is said to belong to a Kenosha saloonkeeper thought to have knowledge of the disappearance of the 750 cases of whiskey in the car.

COMMENCEMENT PROGRAM AT ZION LUTHERAN SCHOOL

Eighteen graduates received diplomas last night at the commencement exercises of Zion Lutheran school. The Rev. Theodore Marth made the presentation, giving a short address appropriate to the occasion.

A program was presented by members of the graduating class. A health play opened the program, after which several musical numbers and readings were given. Miss Anita Boese gave the salutatory. Her subject was "Service," the word chosen by the class as its motto.

Still Another Woman Enters Elwell Case

Owner of Lingerie Found in Slain Turfman's Apartment Is Revealed by Housekeeper—Get More Information

(By United Press Leased Wire)

New York.—"The mystery woman" who featured prominently in the life of Joseph B. Elwell, whist wizard, was known as "Miss Wilson," Mrs. Marie Larsen, housekeeper for the murdered man, during an examination by District Attorney Edward Swann, revealed today.

"I have later found that was not her true name," Mrs. Larsen added. Swann who possesses the real name of the woman said:

"To protect the honor of womanhood, we have decided to withhold the girl's real name for the present."

Often With Elwell

"Miss Wilson" had been in Elwell's company often, recently, Mrs. Larsen said. She was the owner of the lingerie, including a night robe, cap and bedroom slippers found in Elwell's room, the housekeeper said.

"Miss Wilson" had spent Wednesday night with Elwell, she believed but was not sure about Thursday, the night of the murder.

After calling the police on finding Mr. Elwell wounded, I went to the bedroom, Mrs. Larsen said. "The lingerie was in a box on a shelf and either had not been used Thursday night or else had been carefully put away after use. The top covers of the bed were turned back, but they were not rumpled. One side of the bed gave the impression that someone had been lying down for a short time. The impression left was not large."

Seen After Murder

Questioned further, Mrs. Larsen said Elwell was a heavy man, weighing only slightly under 200 pounds and that if he had been lying in the bed, it probably would have been more plainly noticeable.

"Miss Wilson" was at the Elwell house on Friday after Elwell's murder had been discovered, Mrs. Larsen said. She denied that she had hidden the revolver with which Elwell was shot.

As far as Mrs. Larsen knew, she and Elwell possessed the only keys to the house.

Victor Von Schlegel and his divorced wife, Viola Krauss, were questioned until late night, District Attorney Edward Swann announced.

One Woman Exonerated

After examining Von Schlegel for six hours at the district attorney's office, he was taken to his apartment and questioned. A revolver found in the apartment was dusty and had not been used recently, police said.

Miss Krauss was examined in her apartment. She was with Elwell the eve of the murder and had an engagement with him for the following day.

Assistant District Attorney Dooling, who questioned Miss Krauss, said she was entirely vindicated of having any connection with the affair.

DETROIT IS NOW FOURTH CITY IN UNITED STATES

AUTO CITY, WITH 923,739 PEOPLE, OUTSTRIPS CLEVELAND IN RACE FOR SUPREMACY

(By United Press Leased Wire)

Washington, D. C.—Detroit has outstripped Cleveland in population during the past ten years, according to 1920 census results today which gave Detroit 923,739 and Cleveland 796,836.

This is an increase for Detroit of 527,973, or 134.4 per cent over 1910 when the population was 465,766.

Automobiles are more popular than the movies, it may be observed. The increase for Los Angeles was 80.3 per cent compared with the increase of 113.4 per cent for Detroit.

Without Philadelphia's population for 1920, Detroit is now the fourth city in population.

Cleveland has increased 42.1 per cent with 236,173 more inhabitants this year than in 1910. The population then was 560,663.

Others were Detroit 113.4 per cent; Los Angeles 80.3 per cent; Cleveland 42.1 per cent; Baltimore 31.1; Chicago 23.6; Milwaukee 22.3; San Francisco 21.9; Buffalo 19.1; New York 17.9; St. Louis 12.5; Cincinnati 10.3; Pittsburgh 10.2.

The population of Oconto, Wis., was announced as 4,290, a decrease of 709, or 12.6 per cent since 1910.

MISS MABEL SIBLEY IS C. C. OFFICE SECRETARY

Miss Mabel Sibley has been engaged by the Chamber of Commerce as office secretary under Hugh G. Corbett, managing secretary. She has resigned her position as secretary to W. W. Neff, general passenger and freight agent of the Wisconsin and Northern railroad, and expects to start her new duties Monday.

Desks and other office equipment are being installed in the Chamber of Commerce office at the Sherman house today. Mr. Corbett is already busy with tentative plans for getting the chamber into action.

WILSON TAKES NEUTRAL POSITION IN HIS PARTY

WILL LEAVE PLATFORM AND CANDIDATES TO CONVENTION

RAPS G. O. P. PLATFORM

Prussian Methods Adopted by Republicans in Arriving at Platform, Wilson Tells Writer

(By courtesy of the New York World. Extracts from an interview with President Wilson obtained by Louis Seibold at the White House, are herewith presented.)

(Copyright 1920, by the Press Publishing Company.)

(The New York World.)

Washington.—Nine months of courageous battling to repair the consequences of illness resulting from the profligacy which all earnest men draw upon their balance in the bank of nature, has neither daunted the spirit nor impaired in the slightest degree the splendid intellect of Woodrow Wilson.

The president has paid in flesh. There is no doubt about that. But with sublime courage he fought while he lay almost physically helpless. Now that his complete restoration to health seems assured, he fights with determined purpose to bring America to what he considers its sense of duty to the rest of the world with the fullest realization of his own duty to America.

Is More Determined

Mr. Wilson's vision and courage through these nine months of illness have but served to make him the more determined that justice and right (as he appraises them) shall prevail throughout the world if every force or influence at his command can accomplish it.

These are the outstanding impressions that I brought from a three hour visit on Tuesday, last, to the host loved and most hated man in the world, and of half an hour's call on Wednesday.

Regarding the nominee the president declined to make any comment beyond expressing the belief that the gentlemen selected for president and vice-president at Chicago "admirably harmonized with the platform."

"I suppose I should feel flattered," he said, with a twinkle in his eyes, "over being made the issue of the presidential campaign by the republican party. But even the effort of the platform-makers at Chicago to confer the distinction on me of being not only a burning but a living issue, by camouflaging and obscuring the real issues, will not deceive the people."

A Prussian Platform

"The processes by which the Chicago platform was accomplished seemed to me to have been essentially and scientifically Prussian, in inspiration and method. Instead of quoting Washington and Lincoln, the platform should have quoted Bismarck and Bernhardi because the republican attitude regarding the supreme issue that cannot be abandoned or disregarded strongly suggests the arbitrary influences that dictated the doctrines of those two eminent persons."

Had Challenge Accepted

"I am extremely confident that the democratic convention at San Francisco will welcome the acceptance by the republican party of my invitation to make the league of nations the issue of the campaign. I am even more confident that such a referendum will confirm my faith that the American people desire it above anything that a political party may now provide and that they will condemn the consummation of their hopes. No one will welcome a referendum or that issue more than I."

This thing (the league of nations) lies too deep to permit of any political skull duggery, any attempt to sidestep or evade moral and humanitarian responsibilities; much too solemn to treat so lightly or ignore.

"The republican policy of negotiation has been persisted in for the sole purpose of advancing republican chances for the winning of the coming presidential election and has never reflected a sincere desire to ameliorate the effect of measures adopted for protection of the country in time of war. The republican policy has been rather to exaggerate the measures. I hope and believe the platform to be adopted at San Francisco will be more progressive and clearer in understanding than that enunciated by the republicans at Chicago. The character of the men who will sit as delegates in the San Francisco convention should be sufficient guarantee that the issues upon which the campaign is to be fought will be met with definite and concrete statements and not cloudy and ambiguous terms as was the case in the Chicago convention."

Progressives Sell Out

"The republican convention was the apotheosis of reaction. It was the direct antithesis of what I hope the democratic convention at San Francisco will turn out to be. The leaders who call themselves progressive and who pretended to speak for the progressive element in the republican party, sacrificed every principle that made attractive the movement of eight years ago in order to gratify the ambition of some of the present day leaders to prevent the people of the United States from fulfilling their moral obligations to the rest of the world and to themselves. The abandonment at Chicago of the progressive spirit was woefully tragic."

Wilson Hurls Challenge

Washington.—President Wilson has taken the offensive for his policies at the start of the presidential campaign, cabinet officers and administration senators said here today.

In Wilson's interview in the New York Morning World, they said, he has not only pointed out the course he believes the democrats should follow in the presidential campaign, but he has thrown down the gage to his opponents in his own party.

Should the democrats at San Francisco pussfoot on the league, Wilson has left hanging over them the possibility of his candidacy for a third term. Democrats as well as republicans here noted that the president has not repudiated such a possibility. Republicans were ready to comment on it. Democrats were not.

The gage to the democratic opponents, his supporters said, was contained in the utterance that he "was as confident today as I was when I returned from Paris finally in July last, that the people of not only America, but of the entire world, are in favor of the league of nations," and also when he declared the American people want a referendum on the league issue, "above anything else a political party now may provide."

Cannot Escape Issue

In his official family these utterances were interpreted as meaning that Wilson believes the republican party cannot escape the league issue and that the democratic party will have failed the country if it does not take a positive stand for the league.

When Wilson declared the processes by which the Chicago platform was accepted "seemed to me to have been essentially Prussian in inspiration and method" and later refused to comment on the republican candidates, he outlined the democratic campaign, according to administration views.

Democrats Happy

This course is an attack on the republican platform with the incidental statement that the nominees fit the platform. There also was rejoicing among democrats that Wilson had refrained from indicating a choice for any democratic presidential aspirant.

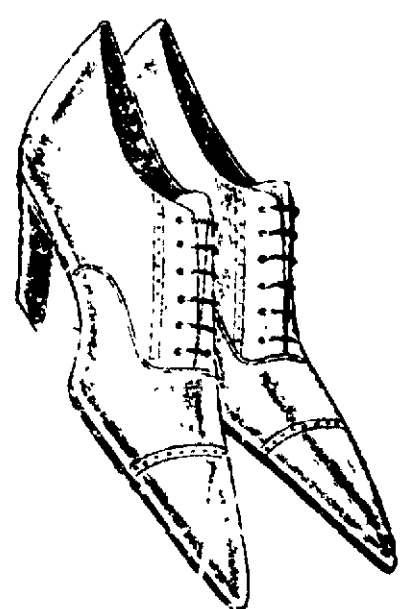

Secretary Daniels' today followed the president's interview with a statement of the same trend.

Daniels Puts in Word

"I think the senate's failure to ratify the treaty is the tragedy of the century," Daniels said.

"The unrest throughout the world is chiefly due to that failure. The American people by an overwhelming majority, showed that they wished the treaty ratified."

Representative Mondell, republican leader of the house, declared the president's interview indicated he was "thinking of a third term."

YOUNG MUSICIANS PLEASE BIG CROWD

CONCERT BY PUPILS OF JEBE VIOLIN SCHOOL IS PLEASANT SURPRISE FOR MUSIC LOVERS

The class recital given by pupils of F. H. Jebe's violin school at Appleton theatre last evening was one of the best presented in Appleton for a long time and the skill that the young musicians exhibited was a pleasant surprise to the large audience.

The young people, practically all of whom were in their teens, were as much at home before an audience as members of any traveling organization and apparently enjoyed giving their friends a rare treat as much as their friends appreciated the opportunity of hearing them.

The arrangement of the musicians on the stage was perfect and the good feeling that prevailed among them was shared by the audience as soon as the program was opened. The musicians applauded the efforts of each other with the same appreciation that the audience applauded the work of the entire class.

The pupils all showed remarkable

NEW FIRE APPARATUS DEMONSTRATES ABILITY TO THROW POWERFUL STREAM OF WATER

The new combination pump and chemical apparatus for fire station number two, which arrived Saturday from Elmira, N. Y., was given an official test at the river bank Thursday evening. Mayor J. A. Hawes and members of the common council, together with delegations from Kaukauna and Menasha witnessed the tests.

A one and a half-inch stream was thrown 186 feet by the pumping apparatus, with a pressure of 210 pounds at the pump and 125 pounds at the nozzle. The capacity test was 680 gallons a minute thrown from the nozzle, against a rating of 600 gallons. When two streams were placed in action, a pressure of 84 pounds was maintained at each nozzle.

The test was entirely satisfactory to the fire department and the city fathers. Official acceptance of the truck is to be made later, however. It will probably be put into service at

ability as musicians for their years, especially Joseph Winninger, who is already a master of the violin. His rendition of "Concerto for Violin (D Major)" was the work of an artist and held his hearers spellbound. "Concerto for Violin 'Scene De Ballet'" by Burton Manser was also exceptionally well rendered.

Equally well appreciated were the solos of Orin Hoh and Earl Wichman and duet by Harold Hoolihan and Hildegard Regenfuss. One of the features of the program was a quartet consisting of Gilbert Muelenbach, Carl Wettengel, Rose Mary Donaldson, Carl Jebe and Lawrence Krull, the youngest musicians of the class, who demonstrated that they also possess remarkable ability. They rendered "Lavender's Blue," "The Cuckoo," and "The Month of May."

The orchestral work was of a very superior grade and testified to the ability of Mr. Jebe as director. Among the selections rendered were "Barcarolle" (from Tales of Hoffman); Waltz, "Sobre Las Olas," (Over the Waves); and "The Merry Peasant." Ruth Wolf Jebe made an excellent and pleasing accompanist.

FINE EATS PROMISED FOR RAINBOW VETS

BANQUET WILL BE SERVED AT ELK CLUB SUNDAY EVENING — PICTURES ARE PROMISED

Headquarters for the Rainbow Division convention Sunday are to be at the Sherman house. Delegations are to register there and then go to the Elk hall, where the business session is to start at one o'clock.

Word has reached the committee that Fond du Lac will send 50 veterans and Oshkosh 35. About 15 are expected from Oconto and there will be representatives from other cities which have no chapter. Fifteen men from each delegation will have voting power in the business meeting.

The entertainment phase of the convention starts with a banquet at six o'clock at Elk hall. The menu is one that will make up for the old days in the "chow line," and includes braised tenderloin steak with plenty of "trimmings." A program of musical numbers and toasts will follow. Moving pictures of the Rainbow Division in action may be shown if the films can be obtained.

AWARD PRIZES TO SCHOOL GRADUATES

COMMENCEMENT EXERCISES OF ST. JOSEPH SCHOOL FRIDAY, JUNE 18, 1920.

Elaborate exercises took place in St. Joseph hall last evening when diplomas were presented to members of the graduating class of St. Joseph school by the Rev. Josaphat Muesig, guardian of the congregation.

Two playettes, "The Cost of a Promise," and "A Sea of Troubles," were presented by the young people in admirable style. Miss Viola Kampe delivered the salutatory address; Carl Doerfler spoke the valedictory.

Several musical numbers were presented between acts of the two plays.

Father Josaphat announced the following prizes:

Highest class average, Carl Doerfler and Viola Kampe, donated by Father Josaphat.

Religion, Alfred Schmitz and Viola Kampe, donated by Schweitzer and Langenberg.

Arithmetic, Arnold Nettekoven and Dorothy Verrier, donated by K. F. Keller and Sons.

Pennmanship, Lucille Forster, donated by H. A. Schmitz.

Diplomas for excellency in Palmer method of writing were awarded to Norman Hopfensperger, George Magnus, Lucille Forster, Margaret Baum, Mollie Boehler, Julia Deligen, Dorothy Doyle, Leona Ertl, Irma Ganzen, Cecilia Haag, Irene Hammes, Teresa Heigl, Teresa Heinzkill, Viola Kampe, Gertrude Kettenhofen, Madeline Newman, Evelyn Palmer, Margaret Paltzer, Margaret Rammer, Adeline Riell, Elisabeth Schaefer, Leona Schwab, Germaine Stammer, Dorothy Verrier.

AUTO HITS TREE ON HIGH SCHOOL CAMPUS

Lives of several women were momentarily endangered about 2:30 o'clock Thursday afternoon when an automobile driven by Mrs. Ira Flansburg crashed into a tree on the high school campus. Mrs. Flansburg lost control of her car at the corner of North and Morrison streets when she turned out to avoid hitting another machine. She inadvertently stepped on the accelerator instead of the foot brake, causing the car to jump forward across the sidewalk and climb up on the campus, stopping when it hit the tree. The car was only slightly damaged and the occupants were uninjured, except for a severe shaking up.

THREATENING ALREADY

Right pert again is that political group that, though peace with Germany has not yet been declared, still prefers to classify its members as German-Americans rather than as American citizens. Only last week its chief western organ, the Illinois Staats-Zeitung, boldly warned the Republican party that unless a man of the Hiram Johnson type was picked as presidential nominee the party would be defeated. It said editorially:

We know only too well, and Republican leaders cannot figure any other results, that the political decision this time rests in the hands of the German-American. German-Americanism is not pledged to any name... but we say unreservedly that the presidential possibilities preferred by the reactionary wing of the Republican party are for us impossible, be their names Harding, Lodge, Wood or any other, naturally not to mention Hoover.

It is easy to note the objectionable qualities of these men, from the Staats-Zeitung's standpoint. They all supported the country loyally during the war, they all condemned the machinations of German agents. Their course was American, not German-American. And "naturally not Hoover," who fed Belgium and kept the breath of life in it while it was overrun by the kaiser's gray-green hordes.

But despite the veto the Republicans named one of the men who "are for us impossible." What are these "German-Americans" going to do now? If the Democratic convention proves no more complaisant where will they go? Will they throw their votes away on the Socialist candidate No. 2253, who certainly proved un-American enough in the war emergency, or will they turn to the prospective third party and dictate who shall be its nominee—LaFollette, for instance? In either event their votes will be wasted so far as securing power with the next administration is concerned.

But it seems to The Post-Crescent that the predicament of these "German-Americans" is less serious than that they have profited nothing by the lessons of the war and that there should still be in this country a body that impudently threatens by the exercise of an un-American solidarity to defeat any political party that does not allow it to dictate the nomination for president of the United States. We had hoped that the gift of more than 50,000 young lives had at least made us cease to be alien and become American.

EIGHT-HOUR FARMING

Appropas of the rather unlimited discussion of the relative values, merits and hardships of farm and city labor, it might be well to consider exactly what would be the result of an eight hour day for farmers with Saturday afternoons and Sundays off.

If a farmer works forty acres of land, exclusive of his pasture, he is doing an average sized job. In doing it he puts in ten hours a day in the field. Besides this he does his chores. "Chores" is a paradoxical designation. The labor involved in them is harder than a good many city jobs. The length of time spent upon chores depends upon how many head of stock the farm maintains. Ten head of cows and a team of horses would keep a man busy about two and a half hours, morning and night, and perhaps a half hour at noon or five and half hours per day.

To give a farmer an eight hour day this five and a half hours would have to be deducted from the field work, leaving two and a half hours to be spent in plowing, cultivating, planting or whatever work the season called for. This brief time is one-fourth of ten hours. Therefore if the farmer who works forty acres by putting in ten hours a day in the field and five more at chores is given an eight hour day he would handle but ten acres. In other words his production would be decreased 75 per cent. This estimate does not consider time out for five hours of chores Sunday and three more Saturday afternoon and evening of each week. What would happen to this country if

the farmers were given an eight hour day and their production decreased three-fourths?

CLOTH NOT APPAREL

The government has very justly decided to appeal the decision of the federal judge who dismissed the indictments brought against President Wood and the American Woollen company on charges of profiteering.

After the indictments were returned President Wood begged for a suspension of popular judgment and said that when the "real facts" were made known his company would be relieved of all stigma. Then he went out and hired probably the most astute lawyer in the United States, Charles E. Hughes, who immediately set to work to free his clients on technicalities. Instead of presenting in court the facts so ardently desired by Mr. Wood he asked that the case be dismissed on the ground that woollen cloth is not "wearing apparel" within the meaning of the Lever anti-profiteering act and won his point. The cases were quashed.

The government is entitled to know from a higher court whether the Lever law is deficient in this respect, not only in justice to Mr. Wood, who was so anxious to prove his innocence that he must have felt terribly upset when his attorney got him off on a technicality, but because if it is a fact the prosecution's hands are tied in many cases.

By the decision of District Judge Mack every profiteer but one concerned in the increasing of clothing prices escape. The woollen cloth profiteer may gouge all he pleases. So may the button profiteers, the thread profiteers, cotton profiteers, each and all, excepting the luckless individual who assembles together all the products of the "court licensed" profiteers into a garment to be worn. If the last named profiteers he violates the Lever act, intimates this judge.

It is desirable to know just where raw material stops and the finished product begins. If there is an essential difference up to the very last process of all it should be made clear. If cloth is not apparel until a pair of shears has cut into it we must know it. In no other way can Mr. Wood and his company secure that real vindication.

RACING WITH DEATH

The death toll is too heavy. We are paying too dear and ghastly a price for what pleasure or profit we get out of the misuse of the gasoline engine. The more automobiles there are the more we speed up along the crowded roadways. The more motorcycles there are the more they, with the little side cars that some have grimly termed "wife and baby killers," thread their way in and out among the heavier vehicles at reckless speed. The more delivery trucks the more uncaring, heedless driving by those in charge.

The total of accidents here and elsewhere is appalling and nearly all, whether collisions with interurbans, street cars or other autos or plunges over an embankment, may be traced back to one primary cause—taking a chance. If you were not taking a chance the other fellow was. Taking a chance to gain a minute or two and then the hospital or the morgue.

What are we going to do about it? More than anything else we need to get the speed muggot out of our brains if the public highways are not to become shambles, but there are precautions provided by law that would reasonably safeguard the careful driver if the law was enforced. But the law isn't always enforced.

There are too many irresponsible, excitement-seeking young boys and immature young girls driving cars who have no business on earth to be at the steering wheel. The state speed limits are broken every minute of the driving hours somewhere on country roads.

In the city of Appleton the police are doing all that is possible with a limited squad to control matters and speeders and traffic violators are being punished with increasing severity, but in the country there appears to be little or no interest in the situation. A quick, sharp campaign by the officials at this season could accomplish a great deal.

And the troubles resulting from careless driving of delivery trucks could be greatly lessened if the firms and corporations using them would call their drivers together at intervals and impress upon them very seriously the necessity of complying strictly with all traffic rules, even if a few minutes a day is lost in so doing. To tacitly encourage speeding is to invite a costly danger.

A SAFE VACATION—3

What Remedies to Lag Along

The United States Public Health Service, Washington, D. C., is an organization conducted by some of our most painstaking doctors. Last year the service issued a free booklet which tells the anxious reader just how to take "The Safe Vacation." As a New York editor remarked, "Hardy is the citizen who, after reading this booklet, does not conclude that, even with the actors on strike, New York is the best summer resort for a safe vacation."

Mark Twain gives a list of the necessary articles to be taken along by a traveler who is going to climb the Riffenberg, and among other items are two barrels of arnica and 154 umbrellas. The P. H. S. list of emergency remedies to take on your vacation includes something like half a gallon of castor oil and several clips of the famous C. C. pills (C. C. meaning either compound cathartic or contains calomel). All the last lists to insure a perfectly safe vacation is a stretcher and a steam sterilizer. When I began practice I used to carry constantly next my liver a complete surgical emergency case. In the course of a few years I wore out three such cases carrying them around and never amputated a leg.

Here are some odds and ends to stick in a pocket in your car or in a corner of your carpet-bag when you are going on a vacation.

Iodine, two drams in a heavy vial enclosed in a wooden case.

Aromatic spirits of ammonia, one ounce.

Elastic collodion, two drams.

Adhesive plaster, one-inch spool.

Bandages, one each one inch, two inches, three inches.

Gauze, two sealed one-yard envelopes. Cotton, two ounces.

Vaseline, one-ounce tube.

Headache tablets, preferably acetylsalicylic acid.

Laxative tablets, preferably one-grain phenolphthalein.

Paregoric, one ounce.

Boric acid, one ounce.

Three sedlitz powders.

The iodine should be swabbed once immediately on every cut, scratch, or wound. Small wounds may be sealed over with collodion. Larger ones may be drawn together with adhesive plaster, and covered with some vaseline, gauze, cotton and bandage. A half teaspoonful of aromatic spirits of ammonia given in one-fourth glassful of cold water is a quick stimulant for shock or fainting. Paregoric is for hiccups. About a teaspoonful of boric acid dissolved in a cupful of boiled water makes a gentle, non-irritating and non-poisonous antiseptic solution for bathing inflamed eyes, for mouth wash or for gargle. A sedlitz powder settles a sick stomach and acts as a saline laxative. The whole outfit may be carried in your pocket. No need to lug along a dispensary equipment unless you are planning to set up as a camp doctor.

QUESTIONS AND ANSWERS

Salty Olives

Another girl and I are very fond of olives, and about three times a week we devour a pint bottle of them in the office. This, of course, causes us to drink a great deal of water. The rest of the girls in the office tell us this habit is very harmful, and while it may not affect us now it will in later years. What is your advice? (C. H. R. and F. D.)

ANSWER—The rest of the girls are joy-killers. What they mean maybe is that a little fat, such as you put on by eating a lot of olives, may not look unattractive or impair your health now, but it will after you have passed thirty-five. You'll be young but once. Pass the olives, please.

Whooping Cough

How long is whooping cough contagious, and how long should the child be kept out of school? (Mrs. C. A. D.)

ANSWER—From the first indication of illness—before the whoop is heard—until the child ceases to cough spasmodically, usually about five weeks. The duration of isolation is a regulation prescribed by the health authorities in each community. Generally a month.

Mrs. Camp Heard From

A neighbor who has had considerable experience with sickness advises us to have our daughter's hair clipped close. She is seventeen, and this neighbor says she can never get strong with so much hair. (Mrs. C. E. H.)

ANSWER—It would be absurd from one point of view and cruel from another for you to perpetrate any such deed.

CITY SUE FOR LOST FIRE EXTINGUISHERS

Atlanta, Ga.—A fire extinguisher company here is suing the city for \$5218.35 alleged due because citizens were loaned extinguishers during the great conflagration of 1917. When the water pressure of the city fell low citizens flocked to the company's office and it holds that it issued 696 extinguishers and that only 187 were returned. The city council refused to pay the bill and the company, claiming it was the duty of the city to protect property from fire, has gone to law for its money.

MOTHER TOOK HER SON FROM SCHOOL

WAS WORRIED BECAUSE HE WAS FRAIL AND THIN—IS THE PICTURE OF HEALTH NOW

"I just wish I could tell every mother in Milwaukee about Tanlac, for it is simply wonderful what it has done for my boy," said Mrs. Bertha Krause, 1031 Pratt St., Milwaukee, Wis., while telling of the remarkable benefits her son, derived from taking the medicine.

"Ever since Earl was ten years old," Mrs. Krause said, "he had been in poor health, and in spite of all I could do for him he got worse. He had awful sick headache spells nearly every day and they made him so faint and weak he would have to go to bed. His appetite was so poor that he ate practically nothing, and his stomach was so badly upset that he could hardly retain the little he did eat. He was almost continually nauseated and every morning he complained of a bad taste in his mouth. His nerves were badly unstrung and he was so restless he could not sleep well. He had a pain in his side so bad that he could not lie on that side. For a year and a half he was out of school and he got so weak and thin I worried over him all the time."

"One day he read about Tanlac himself and asked me to get him some. It was no time before he began to improve and now he really looks like a different boy entirely. His appetite is just fine and everything he eats agrees with him perfectly. The headaches have disappeared and he never complains of that pain in his side. His nerves are steady and normal and he is sleeping soundly every night. His face has filled out and he looks better and stronger in every way. I am more grateful to Tanlac than words can express, and I will always have a good word to say for it of what it has done for my son."

Tanlac is sold in Appleton by John E. Voigt; F. O. Brown, Shiocton; Dr. J. M. Sattler, Bear Creek, H. E. Abend, Dale.

CAN'T GET HELP FOR SUGAR BEET FIELDS

Sugar beet growers of Outagamie county are having trouble in getting experienced help to take care of the crop. The sugar beet factories agreed to provide the help, but have not been able to do so in all instances, notwithstanding that they have made every effort to carry out their part of the contract. Some of the families from other states that arrived in the county early in the spring have since returned home and as a result some of the fields are neglected. The sugar beet crop is cared for principally by foreigners.

TWO MORE FAMILIES MOVE OUT TO LAKE

The families of W. C. Wing and W. H. Zuehlke moved out to their cottages at Lochhyrst early in the week and other families are planning to move out the last of the month. Mr. Wing's cottage has just been completed and is being occupied for the first time. Mr. and Mrs. Charles Wiltz, former caretakers for the Lochhyrst campers, have moved to Neenah and have been succeeded by Mr. and Mrs. Charles Wenzel.

Mr. and Mrs. W. C. Wing have gone to Chicago to spend the week end.

Democratic Convention Snap-Shots

The Story of 16 Nominations
By A. H. VANDENBERG

THE CONVENTION OF 1892

Although there was bitter antagonism to Cleveland in some Party quarters, he was once more the dominant Party favorite when the 1892 Democratic National Convention assembled at Chicago on June 2. Cleveland's old and persistent enemies in his home state of New York, were again the head and front of such opposition to him as existed; and they left no stone unturned to accomplish their purposes.

No sooner had the National Committee issued the National Convention call, than a New York state convention was assembled—four months ahead of the National Convention—and a "snap" delegation set up to support Governor David B. Hill instead of Cleveland. Around this nucleus which was bitterly assailed by those who were called the "anti-snappers" the Cleveland opposition rallied; but to no avail. Out of 909 1/2 votes in the Convention, 607 were necessary to a two-thirds choice, and Cleveland's vote for a third nomination was 617-1-3 on the first roll-call. Governor Hill polled 114, and Horace Boies of Iowa was third with 103 in a total field of eleven candidates.

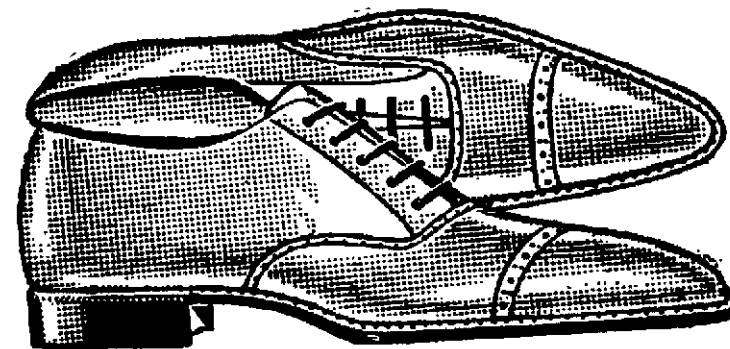

One roll-call for second place showed Adlai E. Stevenson of Illinois leading

(but not with a two-thirds vote) with 402. His nearest competitors in a total field of eight were Isaac P. Gray of Indiana (who had been a spectacular contender in 1888) with 343 votes, Allen B. Morse of Michigan with 86 votes, John L. Mitchell of Wisconsin with 45 votes, and Henry Watterson of Kentucky with 26 votes. Following this one roll-call, however, Stevenson was made the Vice-Presidential nominee on motion from the floor, without a second roll-call.

The temporary chairman of the convention was William C. Owens of Kentucky; the permanent chairman was William L. Wilson of West Virginia. The adoption of the Party platform was preceded by a bitter contest precipitated by a proposal that the tariff plank should carry an implied promise to "protected industries" that there would be no sweeping tariff reductions. The Convention refused any such expedient, however, and by a vote of 564 to 342 adopted a substitute plank denouncing "protection" as a "fraud" and declaring that the Government has no power to levy taxes for revenue only.

The result of this campaign was the second election of President Cleveland.

To be continued tomorrow with the story of the Convention of 1896.

Our prices on Mixed Paint will advance, Tuesday,

June 22nd, on and after that date we will be forced

to charge more.

In the past months we have had several advances in the cost of paint, but having had a very large stock, which was purchased previous to these advances, we have been able to sell our paints at very low prices, considering the quality of same. In replacing our stock, we have been forced to pay the advance price and advance our prices accordingly.

In some paints we find that our present cost exceeds our retail price but we will advance only where it is entirely necessary.

Business Training AT HOME

There are greater opportunities for skilled young men in the business world today than ever before in history. General managers; vice-presidents; controllers; advertising, sales, and correspondence experts; accountants; credit and insurance specialists find a ready market for their services. The pay is good and the chances for advancement positive. But one thing is necessary—training, the kind of training that enables a man to grasp business problems quickly and figure out the right thing to do.

Such training is available through the home-study Business Courses of the International Correspondence Schools. These Courses are written by experts in such a way that any one who can read or write can master them. Back of them is 28 years of experience in teaching by mail over 2,225,000 ambitious men and women. An hour a day devoted to the study of one of these Courses will qualify you for advancement in position and salary. Without obligating yourself in any way, let us tell you more about the subject in which you are interested. A letter or a post card will bring this information to you by return mail.

MEXICAN AZTEC POTTERY

No two pieces exactly alike. A most interesting display in the Gift Section of the Basement. Unusual pieces that will be prized as gifts. See them in the window.

HERE IS THE STORY OF THIS POTTERY

A half clad Mexican Indian living in his one room adobe hut, modeled these pieces with his hands, designed the decoration as fancy dictated, and colored it with clay colors drawn from the clay banks which abound in the vicinity of Guadalajara, Mexico, and finally finished it by rubbing it with a fine grained stone to produce a polished surface.

Water Bottles with cup and standard at \$1.25, \$3.00, \$5.00, \$6.00 to \$12.00.

Water Bottles, Tea-pot shape, with handle at \$5.50.

Fern Dishes, footed, at \$3.50.

Vases at \$5.00 and \$5.50.

Footed Tiles at \$3.50.

WIZARD Mops

Wizard Mops, the first of the triangle mops, are shaped to get into every nook and corner of the room. Their "human elbow" adjustable handle enables them to slip under the furniture and into all the hard-to-get-at places. They are treated with Wizard Polish which cleans, polishes and renews the floor finish, producing a hard, dry luster. Priced at \$1.00 to \$2.00

To Keep Your Furniture Looking Its Best

Of course you will want a good furniture polish. There is no more satisfactory polish for such use than the well-known

WIZARD Polish

It is essentially a cleaning polish. It removes the dust, grime and finger marks from wood-work and furniture, and gives it a hard, dry luster that is very beautiful. Wizard Polish is priced from 25c to \$3.00

Animal hairs!

How they cling to the carpet. Unless you use a Hoover.

Embedded grit! How it wears off the nap. Unless you use a Hoover.

Crushed nap! How difficult to straighten. Unless you use a Hoover.

Grimy colorings! How troublesome to brighten. Unless you use a Hoover.

Surface dirt! How bothersome to collect. Unless you use—an electric cleaner.

Yes, they all do the last. But only The Hoover accomplishes the four other tasks, in addition.

Hence the Hoover is the largest selling electric cleaner in the world. Because when you "just run your Hoover over" the cleaning is complete.

FINE CHANCE TO GET INTO WAR ACADEMY

HIGH SCHOOL GRADUATES WHO ENLIST IN GUARD CAN ENTER WITHOUT EXAMINATION.

(Special to Post-Crescent)
Madison, Wis.—A high school graduate or any man with an equivalent education who enlists in the Wisconsin National Guard this month will have an opportunity to be appointed to West Point next year. Admission to the academy will be on July 1, 1921. To be eligible the candidate must have served one year in the national guard, meaning that the recruit not already a member must enlist this month. In cases of men who have had prior service, that service will count, either national guard or army, but they must be members of some unit of the guard that is federally recognized when they make their application.

The requirements are that on July 1, 1921, the candidates must have served one year in the guard and be between 19 and 22 years of age, with the following exception: during the year 1921 any applicant who has served honorably and faithfully not less than one year in the armed forces of the United States or allied armies in the late war with Germany, and who possesses the other qualifications required by law, may be admitted up to the age of 24 years.

A ruling from the adjutant general of the army is to the effect that the date of the man's enlistment and not the date of the federal recognition of his unit will govern in determining if he has served a year, so that in cases where men enlist in companies that will not be federally recognized until after July 1 they can qualify.

The war department has sent out information at this time so as to give ample notice to all who may desire to qualify for the appointment next year. It has not been decided how many candidates will be appointed from the Wisconsin Guard, but whatever the number all applicants will be given an equal opportunity for the appointments.

WANT ALL VETERANS AT GREEN BAY MEET

**SPECIAL MEETING OF ONEY
JOHNSTON POST NEXT
THURSDAY NIGHT—
WANT ALL TO
BE PRESENT**

Notice has been sent to all members of the Oney Johnston post of the American Legion to be present at a Thursday evening at the armory. Plans are to be made at that meeting for a special meeting to be held here next delegation of several hundred members to attend the state convention at Green Bay June 29 and 30.

Nothing is being left undone by the Green Bay post to make the convention the biggest of any kind ever held in the city. The bulletin state that all moving picture houses, dance pavilions, hotels and steamboats and pleasure craft have been chartered for the two days to be placed at the disposal of the veterans. Several thousand automobiles will also be used for entertaining purposes. Several bands are to furnish music all day and evening.

Railroads have granted a rate of fare and one-third for the round trip from all points in Wisconsin and will provide special cars wherever the traffic will warrant. Adjutant Hugo

Keller is busy ascertaining how many men will attend from Appleton and will arrange transportation either by automobile or special cars on the train.

Service men are urged to bring their families to the convention. Arrangements are made to provide suitable entertainment for the ladies, who are said to be as welcome as the Legion members.

There is a possibility that Appleton will try to secure the 1922 convention. This and other convention matters are to be decided at the special meeting Thursday.

SCHOOL MEETINGS TO BE HELD JULY 6

The annual school meetings will be held Tuesday evening, July 6, instead of the first Monday in the month on account of the latter being observed as a holiday, July 4 falling on Sunday. The law provides that whenever the specified date falls on Sunday that the school meetings shall be held on the day following.

BURN VERA CRUZ HOMES IN WAR AGAINST PLAGUE

(By Jack Carberry)
(Special to Post-Crescent)
Houston, Texas—One-third of the city of Vera Cruz has been reduced to ashes in the fight against the black plague there, according to Americans and Mexicans who have just come out of Mexico.

Sheriff Binford, who has just returned from Mexico, declares all reports from Vera Cruz say that at least one-third of the homes in Vera Cruz have been burned in fighting the outbreak of bubonic plague.

Business in the city has been suspended, soldiers rule the city and no one is allowed to leave or enter.

The isolation camp on an island is crowded to overflowing.

The people think that Mexico is "paying for her sins in blood."

The story generally accepted is that rats from a Chinese ship brought the plague.

HOTELS FOR WOMEN WAR WORKERS SHOW A PROFIT

(By Belle Roberts)
(Special to Post-Crescent)

Washington, D. C.—The government hotels for women war workers, 18 buildings in all, erected on government lands, as a war emergency, are now making money, besides giving 2,000 young women government clerks all the comfort of home.

During the ten months just past \$31,000 has been returned to the Treasury Department.

The monthly rate of \$15 includes a room for one, with all modern conveniences, two generous meals a day, free infirmary service, use of laundry reception room, and other privileges. There are no institutional rules.

MARRIED TWO YEARS. KEEP SECRET WELL.

Lamora Wis.—Mr. and Mrs. J. R. Steiner, Lamora, set a new record for "long distance" secret marriages. They were wed at Waukegan Aug. 4, 1918, and have successfully kept the fact secret until making their own announcement this week. Mrs. Steiner was Miss Alice M. Cowles, daughter of Mr. and Mrs. E. M. Cowles and since her marriage has taught one year in the high school at Winnebago and has been principal of the graded school at South Byron one year. She was graduated from Stevens Point Normal school the spring before her marriage. Mr. and Mrs. Steiner were participants in a double wedding, the other couple being Alfred C. Cowles, brother of Mrs. Cowles Steiner and Miss Edith Granger, formerly of Fond du Lac, now of Minneapolis, who announced their marriage the following February. The two couples went to Milwaukee by auto, chartered by Mrs. F. W. Granger, mother of Miss Edith. They left Mrs. Granger in Milwaukee to make a one-day trip to the Great Lakes naval training station, stopping over at Waukegan on the way down.

Hauling Logs Over All Kinds of Roads in All Kinds of Weather

Maley & Wertz Use Red Crown Gasoline

We quote their letter of Oct. 1st.

Mr. W. J. Lang, Manager,
Standard Oil Company, City.

Dear Sir:—

We have been using Red Crown Gasoline in all of our trucks and pleasure cars for quite awhile, and are well pleased with the results obtained and the service given by your people.

We haul logs into Evansville from all directions for a distance of from 18 to 20 miles, and over all kinds of roads. When our log truck was not pulling as it should, one of your employes made a trip to the country with our truck driver and adjusted the carburetor so as to make the engine pull better and reduce the amount of gasoline used.

We certainly appreciate service of this kind, and that is the reason that we have been giving you our business.

Yours very truly,

MALEY & WERTZ

Red Crown Gasoline Will Give You Splendid Service

It is made especially for the modern automobile engine and for no other purpose. As such it has no superior. No fear of hard pulls with Red Crown in your tank. It is the same gasoline that Pershing used in the heavy tanks abroad. We make it and we know what it contains.

Red Crown delivers to your rear wheels all the power your engine can develop—sustained power—smooth, rhythmic power. You can move on schedule with Red Crown in your tank. It starts easily, winter or summer, enables your car to get away quickly and to accelerate smoothly. We guarantee the uniformity of Red Crown.

A Voice From Sioux City, Iowa, says

PE-RU-NA Worth Its Weight In Gold

You cannot mistake the words of Mr. W. W. Northrup, of 908 Fourth Street, Sioux City, Iowa. He is enthusiastic about his present health and the merits of PE-RU-NA and wants everyone to know it. Here is a recent letter from him:—

"PE-RU-NA is worth its weight in gold and then some. I used to think it only a woman's remedy but have changed my mind. I had a cough, especially in the morning. After using half a bottle of PE-RU-NA was much better. I would cough up chunks of phlegm and mucus, my eyes itched and bothered me. Judging from the symptoms given in your almanac it was catarrh. My stomach is in much better condition since using your medicine."

"Use this testimonial, if you wish. Don't hesitate to advertise the merits of PE-RU-NA."
(Signed) W. W. NORTHROP.

There are thousands just like Mr. Northrup, skeptical at first but convinced by a trial of PE-RU-NA.
DON'T BE AN UNBELIEVER.

If your trouble is of a catarrhal nature, try PE-RU-NA, then tell your friends. It is fine after an attack of grip or Spanish Flu.

The Cows Did It!

The cows themselves showed the manufacturers what to do in developing the world's greatest milking machine. The Pine Tree Milker was made on a real dairy farm—right out where the cows were. It was tested, step by step, by actual experiments made with the cows.

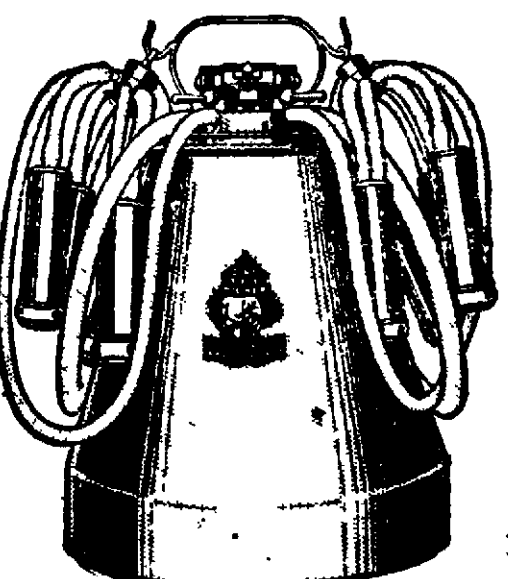

The temperament of the animals and their likes and dislikes were considered carefully. The conditions under which they gave down their milk more freely were noted and used. Advantage was taken of every soothing and relaxing influence.

PINE TREE MILKER

The Pine Tree Milker is the one milking machine that is "cow perfect" as well as "mechanically perfect." It was not built in the city and then "tried out" on the cows. It is the last word in mechanical milking. It is the one

perfect milker—the one whose wonderful record has made milking machine history the past two years. Dairy experts who knew dairymen's needs—not mechanics—made the Pine Tree Milker.

**Don't Buy Any Milker Until
You See The Pine Tree**

You can't afford to make a mistake in selecting a Milking Machine. Be particular! The more particular you are, the stronger the Pine Tree will appeal to you. Begin to investigate at once. You are too up-to-date and prosperous to go any longer without a good milker.

Come In or Phone

Come in the first time you are in town—or ring up on the phone. Let's talk this over at once. It is not necessary for you to have all cash to get a Pine Tree Milker. Your word is good.

WOMEN'S TRAINING CAMP WANTED FOR WISCONSIN

(Special to Post-Crescent)
Madison, Wis.—Endorsement of the summer camp plan of physical education promoted by the U. S. Training Corps for Women, has been given by the Wisconsin state board of health through its executive officer, Dr. C. A. Harper. Recently the president, Miss Susanna Crockett, wrote extending an invitation for Wisconsin women to enroll for the coming season.
This camp will open at Asheville, N. C., July 15, and close August 25. It will accommodate 1,000 women. Physicians are permitted to send women who, although able to exercise, need conditioning. A bill pending in congress, having the approval

of the U. S. public health service and the health departments of 42 of the 48 states, will, if enacted, make it possible to multiply these camps in all sections of the country for the promotion of the health of the mothers of the race.
The success of this bill may result in the selection of a Wisconsin site for one of the proposed camps. A lake site across from the city of Madison was chosen for one of these camps two

years ago, but congress failed to enact legislation to support the plan. A more determined effort to pass it will be made at the session of congress opening next December.
An aerial freight and mail transportation system, which will eventually employ 2,000 airplanes in serving 70 American cities, will be inaugurated July 1, with Cleveland as its headquarters.

RUTH HITS NINETEENTH HOME AGAINST SOCKS

CHICAGO—Babe Ruth, the home run king of the New York Americans, on Thursday made his nineteenth circuit drive of the season, the visitors winning from Chicago, 7 to 1.
Ruth struck out his first two times at bat. A man was left stranded on base each time. Lefty Williams wobbled in the fourth and after two were out he walked Ward and Papp. He then had the call two and two on Ruth and took a chance. He grooved a fast one waist high and the big slugger cut it square and drove it clear over the right field bleacher wall into an adjoining lot. The heavy north wind deprived him of another home run in the last inning, when the ball went foul by a few feet.

M'HENRY'S HOME RUN IS FATAL TO PHILLY HOPES

PHILADELPHIA—McHenry's home run scored the only run of Thursday's opening game of the St. Louis series, the visitors winning by 10 to 9. Hanes permitted only three hits. Score:
St. Louis 1 0 0 0 0 0 0 0-1
Philadelphia 0 0 0 0 1 0 0 0-9

BROWNS BUNCH HITS, BEATING MACKS, 12-0

ST. LOUIS—St. Louis and Philadelphia indulged in a free hitting contest on Thursday, and while the latter outbatted the locals, St. Louis lunched its drives to better advantage and won 12 to 0. It was the locals' eighth consecutive victory.

Score:
Philadelphia 0 1 1 0 0 0 2 4 1-9
St. Louis 0 7 2 0 3 0 0 0-12

RED SOX BEAT TIGERS IN PITCHERS' BATTLE, 2-1

DETROIT—Boston noosed out ahead in a pitchers' battle on Thursday and won from Detroit, 2 to 1. The Red Sox scored in the first and due to J. Bush's superb pitching were never in danger until the ninth, when the Tigers gained their only run. Score:
Boston 1 0 0 0 0 0 0 0 1-2
Detroit 0 0 0 0 0 0 0 0 1-1

DODGE COUNTY G. O. P. TO SUPPORT HARDING

Juneau—Progressive Republicans of Dodge county will meet at Mayville, June 19, to select candidates for county offices.

Sheriff William Kohl, a delegate to the national convention, says his wing of the party will support Harding. It is said to be certain that the conference will endorse Dithmar for governor and probably Thompson for senator.

The conference is expected to endorse Herman Zilmer and Fred Moul. Nonpartisan league candidates for the assembly, it being expected that the league will in turn endorse their county ticket.

Herman E. Krueger, Watertown, twice defeated as Democratic candidate, will head the Progressive ticket as candidate for sheriff.

BISHOP SCHWEBACH PASSES 50TH YEAR OF PRIESTHOOD

La Crosse—Honored by the presence of archbishops and bishops and hundreds of priests, coming from all sections of the country, Rt. Rev. James Schwebach, bishop of the La Crosse diocese, celebrated the fiftieth anniversary of his ordination to the priesthood today. Solemn pontifical high mass was celebrated in St. Joseph's cathedral at 10. Archbishop Sebastian Messmer of Milwaukee delivered the sermon. At noon a luncheon was given for visiting prelates and clergy, with Bishop Schwebach as the honor guest. Tonight a public reception will be held in Pioneer hall. In his seventy-third year, Bishop Schwebach is still active. He has been bishop since 1892. A \$5,000 automobile was one of the gifts by the people of the diocese to the bishop today.

Have you investigated thoroughly every security you have bought? Eternal vigilance is the price of dividends and your insurance against loss.

90 per cent of investment losses are due to ignorance in buying or neglect in watching developments in securities held.

To be a successful investor you must hold securities in the big industries of the present. Securities represent partnership in industries. Industries represented by securities move in circles the same as nations, countries and individuals.

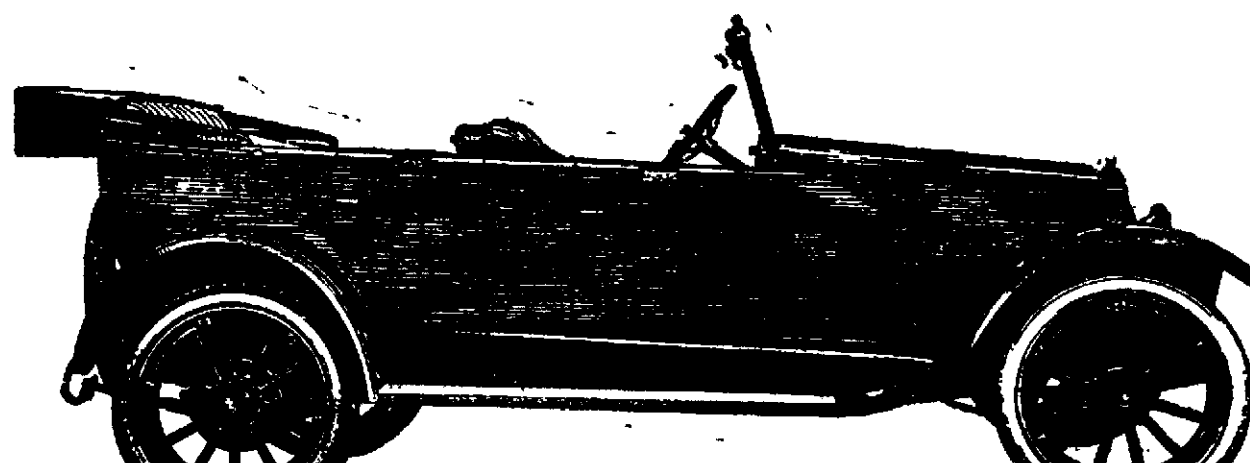

Most of these successful enterprises were made possible by the small investor, the men who had to make their money count. The men who had courage and the persistence to sustain their idea that the product they were making possible had merit and must succeed. Theirs is not luck—it's the fruit of courage and foresight.

The demand for automobiles has grown by leaps and bounds. Some of the best authorities say that this will continue for at least five more years before plants can expect to catch up. Nearly all factories are building additions for future business. This applies to old as well as new companies. They also predict a great foreign business.

The Lorraine Motors Corporation is a going concern. It was organized in a legal manner by men who know the automobile business. We have stood up under the acid tests of keen and thorough investigation. Conducted by bankers, business and professional men. It is past the experimental stage, and is, we believe, on the road to splendid success. It began in a modest way and has pursued the safe and sound policy that reduces the risk to a minimum.

It is governed by a board of directors, among who are bankers and business men. It now owns five acres of land in Grand Rapids, on which stands a factory building equipped with modern machinery with capacity of twenty-five cars a day. It has enough orders to keep them running all this year and receiving additional orders daily.

In order to double our capacity to meet the demand for our cars, we are offering the public an opportunity to join with us and are offering a special inducement to those who act now.

HENRY THIEL IS ON EXECUTIVE BOARD OF NON-PARTISANS

APPLETON MAN WILL ASSIST IN NAMING OFFICERS FOR STATE NON-PARTISAN ORGANIZATION.

Henry Thiel of Appleton was made a member of the executive committee of the Wisconsin branch of the Non-Partisan League at the state convention at Madison Tuesday and Wednesday. Mr. Thiel was the official delegate for Outagamie county. His appointment to the committee gives him a share in naming the officers for the state organization, which is to be done at a meeting in the near future.

"The convention was highly successful," said Mr. Thiel. "There are all kinds of newspaper reports out about what we did, including the accusation of steam rolling, but these are all false. Everything was open and above board. The names of the men aspiring for office were on a blackboard before us and we chose our candidate by secret ballot. If there appeared to be any general support of one candidate over others, it was because the delegates were under instructions from their people back home."

There were 42 delegates at the convention and about 200 visitors. They adopted the platform of the Farmer-Labor League, with a slight alteration in the paragraph on child labor. They also endorsed Senator La Follette's record, but took no definite stand with regard to a presidential candidate. Arrangements were also made to place 100 organizers in the state at once to thoroughly organize the farmers before the fall elections. The Non-Partisan League will also try

G. O. P. PLATFORM DISAPPOINTING TO FARMERS AND LABOR

HENRY THIEL AND FRED BACHMAN EXPRESS OPPOSITION TO REPUBLICAN ATTITUDE.

There are at least two Appleton men who believe the republican party has failed to provide a remedy for unrest in its platform adopted last week. These men are not familiar enough with Warren G. Harding, the presidential nominee, to express an opinion on him personally, but exception is taken to the platform of the republican party, which they claim dodges the vital issues and fails to get at the heart of the abnormal conditions of the times.

"I find people pretty generally dissatisfied both with the candidate and the platform," said Henry Thiel, manager of the Outagamie Equity Exchange. "They should have done something to alleviate the conditions which confront the nation, but they failed to do so. The interests of the common people seem to have been overlooked. The platform is nicely worded, but I can't see that the party offers a remedy for the high living cost and other aggravated conditions."

CAN A WOMAN BE A BROTHER?—PUZZLE

(Special to Post-Crescent)

LONDON—The clerk of Ramsgate is puzzled. The alderman wish to send Mrs. E. R. Dunn as their representative at a "brotherhood" meeting. The clerk can't see how a woman can be a brother and he's asking higher authorities before granting Mrs. Dunn credentials.

"I don't know much about the candidate they put up," said Mr. Machman, "but I don't think much of their platform. It doesn't do anything while for labor, and makes no effort to remedy the conditions of unrest, living cost and other oppression. It is composed of a lot of nice sounding words that don't mean anything to the common people, who looked to the republicans for a remedy."

"The platform throws out the League of Nations; says nothing about the eight hour law, the right to organize; and the proper handling of industrial disputes. It seems to

CROSS EYES CURED!

Dr. Carter, Chicago's famous Eye Surgeon, has been straightening crossed eyes at his office, in Chicago, for over 23 years, and always in one visit, without pain, chloroform or hospital.

Hundreds of Patients to Prove This

Hundreds of happy people have had this great handicap removed by him. He wants to prove it to you. If you are suffering from the disfigurement of crossed eyes, you need not do so for another day. He can cure you.

Send for Illustrated Booklet

which shows twenty-four actual photographic reproductions of patients, taken before and after having their eyes straightened by his SPECIAL PROCESS. This sort of proof is convincing. You can't fool the camera.

LIFT OFF CORNS!

Doesn't hurt a bit! Sore corns lift right off with fingers.

Magic!

Costs few cents! Drop a little Freezone on that touchy corn, instantly that corn stops hurting, then you lift it right off with the fingers.

Why wait? Your druggist sells a tiny bottle of Freezone for a few cents, sufficient to rid your feet of every hard corn, soft corn or corn between the toes, and calluses, without soreness or irritation. Freezone is the much talked of discovery of the Cincinnati genius.

AUTO FACTS

HERE are the auto-facts of the case. We are expert repair men and sell dependable supplies at friendly prices. Two things that Mr. Della Bill figures out at the end of a year are: "How much mileage did I get out of my car and what was the expense?" Mr. Bill is advising his army of friends to read his weekly chat and take advantage of real auto opportunities.

CAN you think of a more delightful treat for a hot summer night than a cooling dish of ice cream?

And it takes no time or trouble to serve it—no fussing or annoyance—pure enjoyment undisturbed.

Bellevue Ice Cream is made of cream from pure blooded cows (not ordinary commercial cream). It reaches you without coming into contact with any hand, as it is produced by modern, sanitary machinery from the cow to the air-tight container in which it is delivered.

Just try a quart—you'll soon get into the habit.
